SUMMARY

Skilled DevOps Engineer with experience in Continuous Integration and Deployment, Release Management, Software Configuration, Infrastructure Creation/Handling, and Automation. Helping teams work smoothly with the DevOps cycle over the cloud.

EXPERIENCE

OpenShift Administrator

December 2021 – Present, Bangalore

- Managed Kubernetes/OpenShift to oversee microservices for the development of continuous integration and continuous delivery.
- Experience in working on version control systems such as Git using GitLab. Good understanding of Linux and bash scripting.
- Deployed, scaled, and maintained containerized applications using OpenShift.
- Implemented the integration of Prometheus and Grafana with OpenShift clusters.
- Experienced in Jenkins administration tasks and skilled in managing and renewing certificates.
- Monitored the usage of NFS storage and other related activities.
- Performed DR drill activity to maintain compliance.
- Involved in constant interactions with clients for regular reports and discussing new enhancements.

Container Engineer

December 2021 – Present, Bangalore

- Deployed and configured OpenShift clusters, ensuring optimal performance and resource utilization.
- Upgraded and maintained Red Hat OpenShift clusters and supported applications.
- Troubleshooted and resolved infrastructure-related issues to ensure high availability and optimal performance of systems.
- Documented standard operating procedures and best practices.
